Part of Our Valued Customers

Products for Mobile Segment

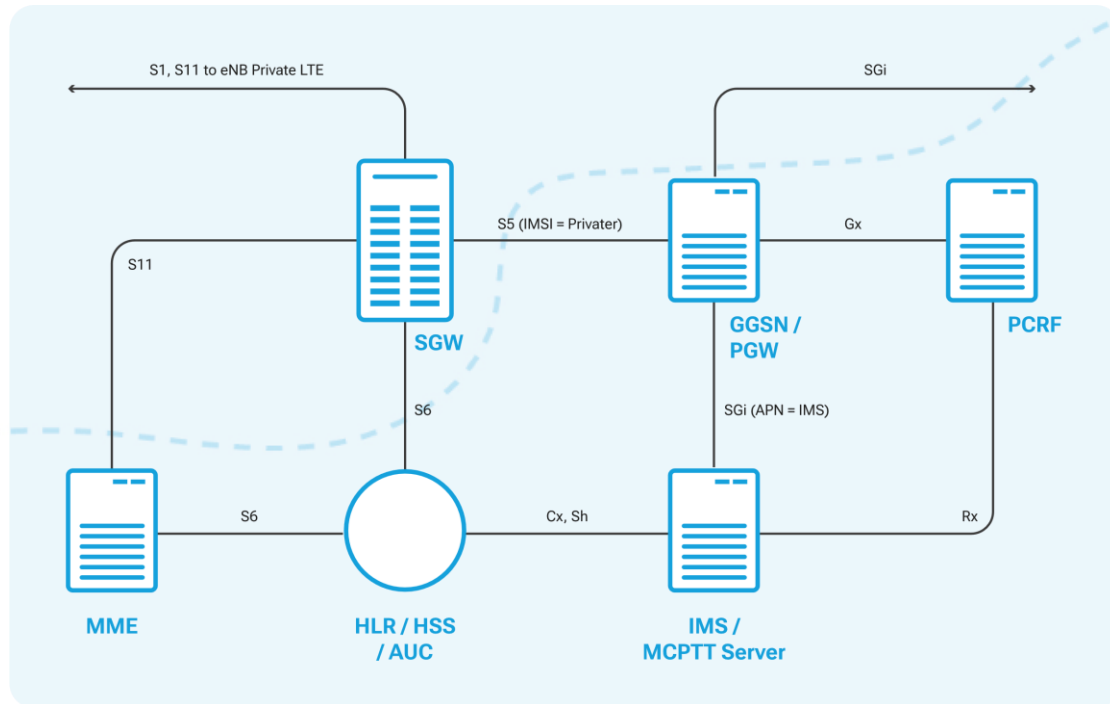

PROTEI Components for Network Core

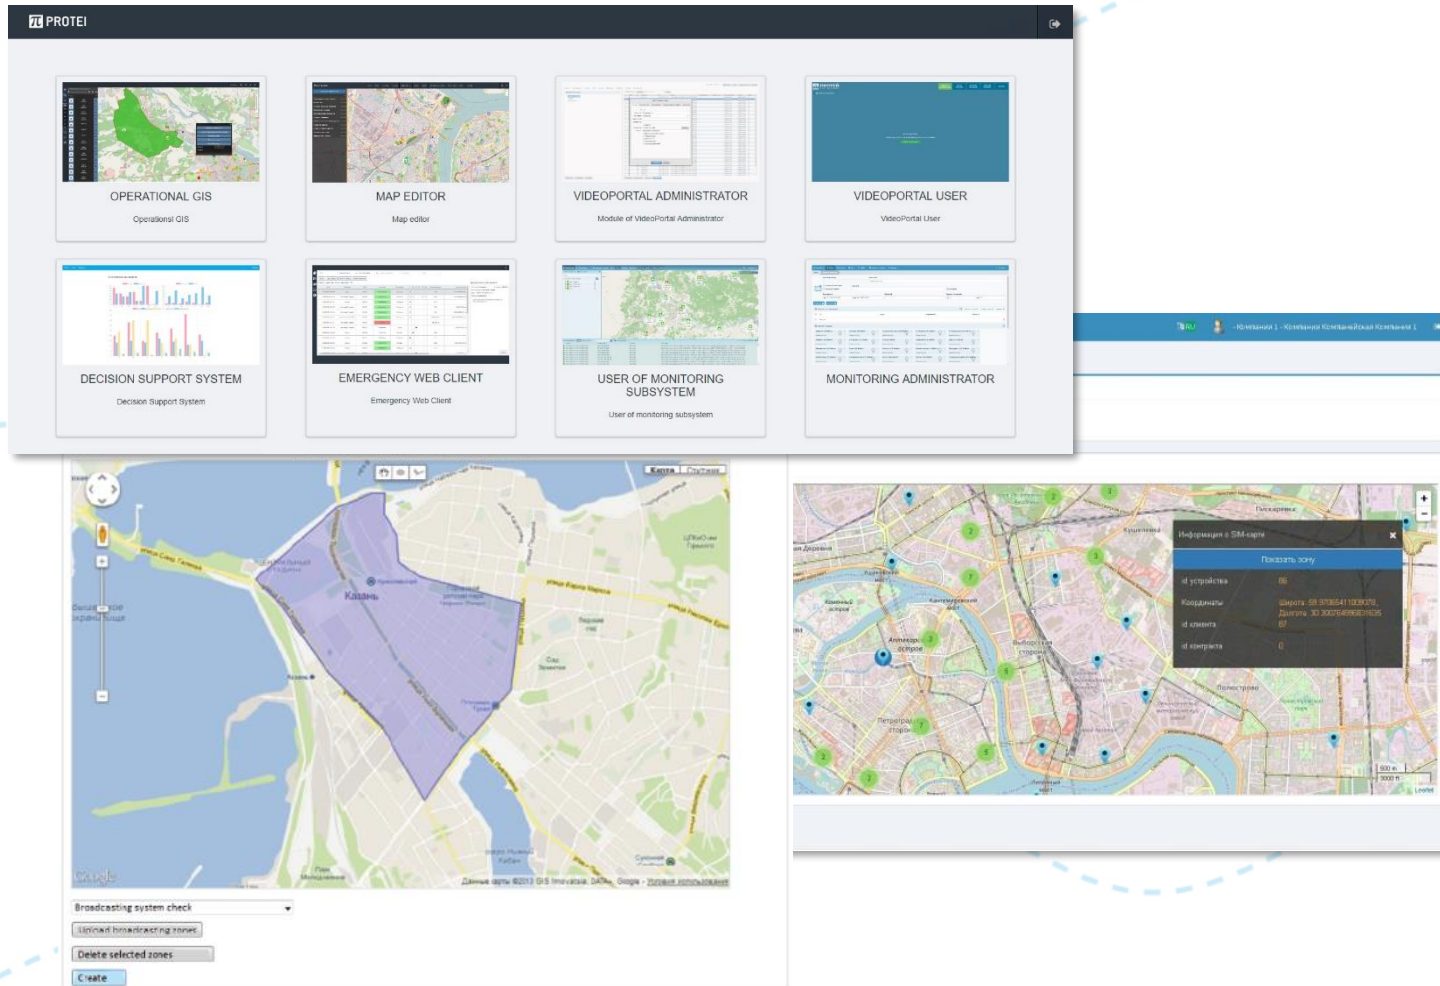

- Easy integration with 3G/4G networks
- 3GPP compliance
- Field-proven carrier-class solutions
- CORE element in the carrier network
- Wide functionality and range of services
- Fast and easy deployment
- Compatibility with equipment of leading telecom vendors
- Wide range of supported interfaces

Private LTE/5G MCPTT Solutions

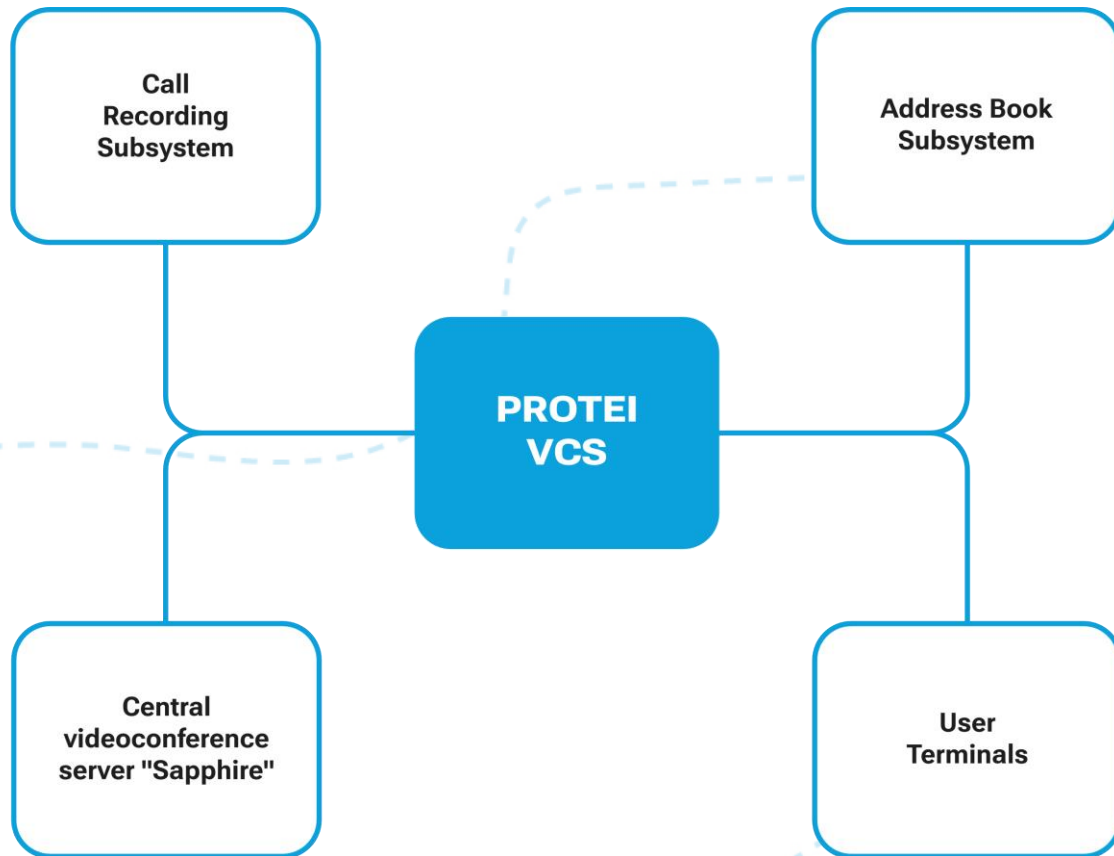

- Turnkey Private LTE/5G, IoT-MVNO solutions
- Effective solutions for telecom operators, enterprises and emergency services
- 5G NSA support
- High security level
- Easy adaptation to specific customers' requirements
- IOT for industry, monitoring and objects
- MCPTT – modern professional radio communication

Smart / Safe City Solutions

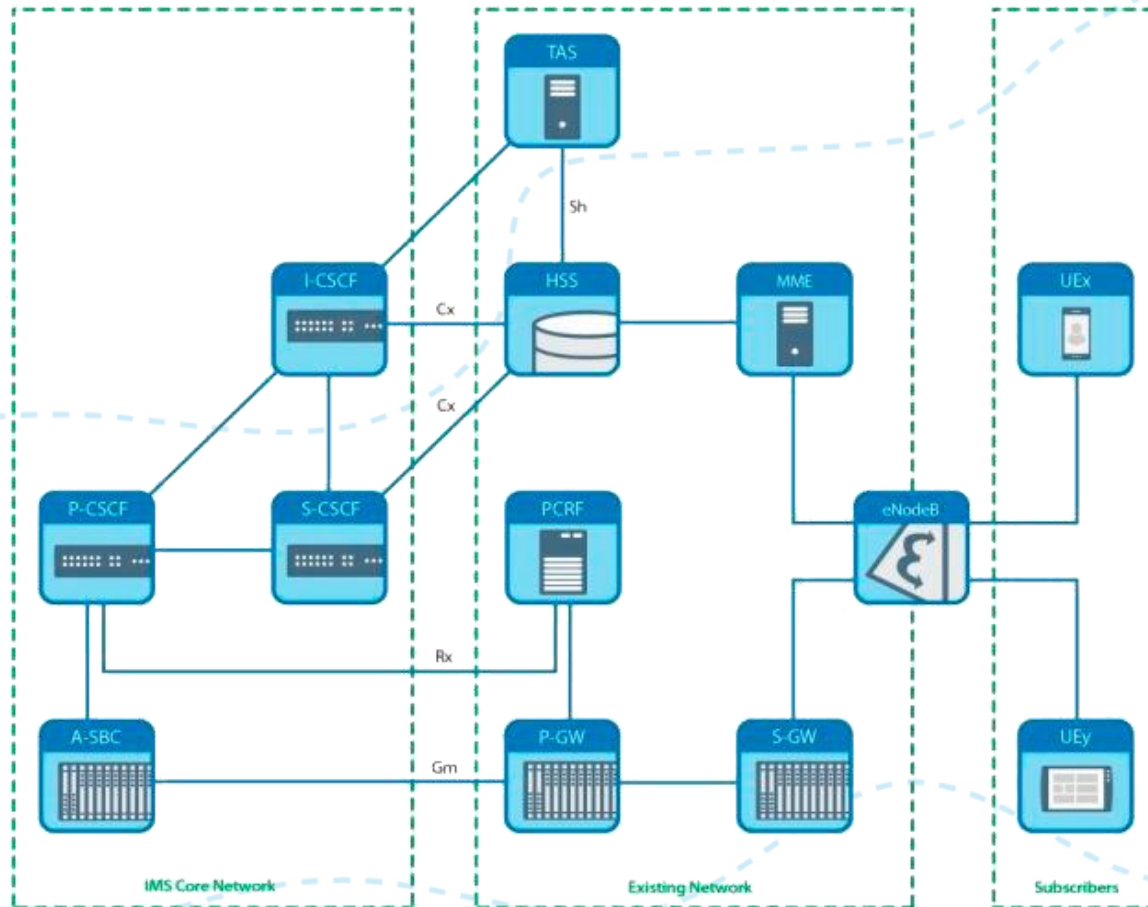

- eCall platform
- Call Centers and Ticketing system for 112 / 911 command and control centers
- M2M / IOT platform
- Public Warning Solutions
- CCTV solutions and videoanalytics

Videoconferencing Solutions (VCS)

- Fully functional VCS solution completely designed and developed by PROTEI including VCS terminals
- High quality video processing at the hardware level (up to 64 FULL HD streams)
- Possibility to manage independent media streams for each conference participant
- Interoperability with wide range of terminal devices and 3rd party VCS-systems via SIP
- A user-friendly interface
- Integration with cyber security devices

NGN/IMS Equipment

- Carrier-class field-proven solutions
- Reliable hardware and software platform
- More than 1000 installations all over the world
- Easy integration and adaptation to customers' needs
- Virtual environment or Operator's hardware
- Horizontal scaling
- High reliability without single "failure point"
- Full remote access to the system components

Why Deal with PROTEI?

- **20 Years** of expertise in the area
- Several commercially operated **Full MVNOs and tens of DPI deployments** in different countries
- **Over 40 systems and solutions for mobile operators** of GSM / UMTS and LTE standards, including all key elements of the network core
- Successfully implemented projects **in 40 countries**
- Compatibility with **the core equipment of leading telecom vendors**
- An elite team of telecom professionals

Thank you!
...and we're ready for cooperation
